Background and methodology of the research

Background of the research
The PO service provider landscape is changing rapidly, as providers look at enabling end-to-end transformation journeys for clients by adopting a partner-led approach. This is leading to a rapid rise of digital along with a shift in focus from cost reduction to driving business outcomes. Increasing investments and application of advanced/cognitive analytics, Robotic Process Automation (RPA), Internet of Things (IoT), and blockchain are all fueling this growth.

In this research, we analyze the global PO service provider landscape in 2018. We focus on:

- 2019 PO PEAK Matrix and Star Performers
- Service provider delivery capability assessment
- Everest Group’s analysis of service providers

The scope and methodology of this report includes:

- Third-party PO deals; it does not include shared services or Global In-house Centers (GICs)
- Over 1,500 multi-process PO deals signed as of 2018, with a minimum of three procurement processes, over US$1 million in Annual Contract Value (ACV), and a minimum contract term of three years. Typically, managed spend is greater than US$50 million
- Coverage across 16 PO service providers with multi-process capability, namely Accenture, Aegis, Aquanima, Capgemini, Chain IQ, Cognizant, Corbus, Exela Technologies, Genpact, GEP, HCL, IBM, Infosys, TCS, Wipro, and WNS
This report is based on four key sources of proprietary information

- Everest Group’s proprietary database of 1,500 PO contracts (updated annually)
  - The database tracks the following elements of each multi-process PO contract:
    - Buyer details including industry, size, and signing region
    - Contract details including Total Contract Value (TCV), Annualized Contract Value (ACV), term, start date, managed spend, and pricing structure
    - Scope including coverage of buyer geography, process, and category
    - Technology including core procurement technology, service provider’s add-on tools (if any), ownership, and maintenance
    - Global sourcing including delivery locations and level of offshoring

- Everest Group’s proprietary database of operational capability of 16+ PO service providers (updated annually)
  - The database tracks the following for each service provider:
    - Revenue, managed spend, and number of FTEs
    - Location and size of delivery centers
    - Revenue split by geography, region, and industry
    - PO service suite
    - Number of clients
    - Technology solutions developed

- Service provider briefings
  - Vision and strategy
  - Annual performance and future outlook
  - Key strengths and improvement areas
  - Emerging areas of investment

- Buyer reference interviews, ongoing buyer surveys, and interactions
  - Everest Group’s executive interviews and data collected from various buyers
  - The data contains detailed buyer perspective about PO contracts, specifically on:
    - Drivers for adopting PO and assessment of service provider performance
    - The level of buyer satisfaction and the underlying reasons

The source of all content is Everest Group unless otherwise specified

Confidentiality: Everest Group takes its confidentiality pledge very seriously. Any contract specific information collected will only be presented back to the industry in an aggregated fashion

Overview and abbreviated summary of key messages

This report examines the dynamics of the global PO service provider landscape and its impact on the PO market. Based on the comprehensive Everest Group PEAK Matrix, each of the 16 PO service providers are segmented into Leaders, Major Contenders, and Aspirants. The report also provides key insights on service provider position & growth in the market, changing market dynamics, and assessment of service provider delivery capabilities. It will assist key stakeholders (service providers, buyers, and technology providers) understand the current state of the PO service provider landscape.

Some of the findings in this report, among others, are:

- Everest Group classified 16 PO service providers on the Everest Group PEAK Matrix™ into three categories of Leaders, Major Contenders, and Aspirants
- The 2018 PO PEAK Matrix positioning is as follows:
  - Leaders: Accenture, GEP, IBM, and Infosys
  - Major Contenders: Capgemini, Chain IQ, Cognizant, Corbus, Exela Technologies, Genpact, HCL, TCS, Wipro, and WNS
  - Aspirants: Aegis and Aquanima
- Based on YoY movement of different service providers on the PEAK Matrix, Everest Group identified five service providers as the “2018 PO Market Star Performers” – Accenture, Genpact, GEP, and WNS

- We assessed the overall PO capability of service providers by evaluating them along seven dimensions – Scope, innovation and investments, delivery footprint, vision and strategy, market adoption, portfolio mix, and value delivered
This study offers three distinct chapters providing a deep dive into key aspects of PO market; below are three charts to illustrate the depth of the report.

---

### Assessment of PO Service Providers 2019

#### Market impact
- Leaders
- Major Contenders
- Aspirants
- Star Performers

#### Vision & capability
- Measures ability to deliver services successfully

---

### Everest Group’s remarks on service providers

#### Strengths
- Service provider 1 has strong end-to-end offerings across the Source-to-Pay (S2P) value chain. It offers robust sourcing and category management expertise, along with a suite of digital and analytics solutions.
- Clients have highlighted the following as Service provider 1’s key strengths:
  - Deep domain knowledge
  - Strong delivery focus and efficient sourcing & contracting processes

#### Areas of improvement
- Service provider 1 should try to enhance its technology capabilities either in-house or through third-party partnerships with technology enablers.
- A few clients have mentioned that Service provider 1 needs to build on domain expertise in niche areas, especially when clients have unique/different business structures.

---

1. Assessment for Aquanima excludes service provider inputs and is based on Everest Group’s proprietary Transaction Intelligence (TI) database, service provider public disclosures, and Everest Group’s interactions with PO buyers.
