

Making 3D Jewish art pieces - our very own pieces of Judaica!

Tuesday 27th December

This is a practical session for people of all ages. We will begin by very briefly looking at examples of Judaica (Jewish ceremonial art) that are associated with Shabbat and festivals. Then through the use of various materials such as clay, wire, card, paint, wood and glue we will each have a go at creating our very own 'modern' Judaica pieces

JUST TO LET YOU KNOW THAT THIS SESSION WILL BE RUNNING FOR 2 HOURS - 10 20—12 20

You can of course leave earlier than 12 20 if you wish!

ON THE NEXT FEW PAGES ARE SOME

JUDAICA IMAGES

... FOR INSPIRATION!
