Promoting Accurate and Balanced Coverage in the British Media

Founded in 1982, the Committee for Accuracy in Middle East Reporting and Analysis is an international media-monitoring, research, and membership organisation devoted to promoting accurate and balanced coverage of Israel and the Middle East.

CAMERA fosters rigorous reporting while educating news consumers about Middle East issues and the role of the media. Because public opinion ultimately shapes public policy, distorted news coverage that misleads the public can be detrimental to sound policymaking.

A non-partisan organization, CAMERA takes no position with regard to British or Israeli political issues, or with regard to ultimate solutions to the Arab-Israeli conflict.

CAMERA UK

We promote accurate
and balanced coverage
in the British media,
and train students to
effectively educate
others about historical
and current issues
in Israel.

CAMERA Arabic

CAMERA Arabic is the only initiative in the world dedicated exclusively to prompting more accurate and professional Arabic-language reports from influential western media outlets such as the BBC, Sky News, CNN, AFP, France 24, and Reuters.

CAMERA Arabic's work has recently been highlighted in the Asserson report on the BBC and within a parliamentary debate on BBC impartiality.

Please support our vital activity prompting hundreds of corrections, establishing critical relationships with reports and editors, advocating for objective language, eliminating antisemitic content and urging coverage of newsworthy items that are otherwise ignored.
